1. WHO ARE WE ?

The EUROPEAN UNIVERSITY is an accredited private higher education institution in Skopje, North Macedonia, that offers a variety of courses – undergraduate (Bachelor) and postgraduate (Master) studies in several scientific areas ranging from dental medicine, art & design, criminalistics and security, economics, and software engineering.

The History of the University begins with the foundation of MM College that evolved into the Faculty of Social Sciences in 2003.

The First Private European University was recognized as a legal successor in 2005, and in 2007 it became the legal entity that is known today.

All the study programmes are re-accredited in 2018 | 2019.

LANGUAGE OF TUITION

The tuition for every study programmes is conducted in Macedonian and English language, according to the student's choice (*except postgraduate study program Art and Design 4 + 1, only Macedonian). For international students, proof for language proficiency (level B1 CEFR) is required.

Regarding the Proof for English language proficiency at required level B1, the European University accepts:

- a) Confirmation from the secondary school regarding English language proficiency;
- b) Certificate from a language school;
- c) Internationally recognized certificate (TOEFL, IELTS, etc.);

In case of a) and b), the candidate will take a language proficiency test before starting the academic course.

In case of c), the candidate may start the academic course immediately, without additional language testing.

WHAT DO WE OFFER?

ERASMUS+ MOBILITY

The EUROPEAN UNIVERSITY is an active participant in the Erasmus+ programme with an expanding base of partner institutions. The programme provides financially aided student mobility within and outside of the European Union. Here you can find some of our partner institutions from the Erasmus+ programme.

6. ADMISSION PROCEDURE

OPEN ADMISSIONS

At the European University we have open admissions. That means no entrance exam, only ranking and introductory interview with the candidates.

The ranking of the candidates is based on the total grade average from secondary school. We don't review specific grades | subjects (ex. biology, chemistry...). As long as there are available enrolment places left, we can accept every candidate that has applied and meets the general conditions.

If there are more candidates than the available registration spots, then the total grade average from secondary school is relevant for someone to drop out of the acceptance list (not to be registered).

HOW TO APPLY?

You can apply online at our site www.eu.edu.mk/en. Registration application forms are available.

Fill in the Application, click Save, and submit it together with the scanned documents at your disposal (check out the Announcement for registration) at the following e-mail address: applynow@eurm.edu.mk

* The Documents you submit electronically are submitted in original at the Student's Office along with other relevant evidence that you meet all the conditions prescribed by the Announcement for registration, no later than September 30th.

WHO CAN ENROLL?

BACHELOR:

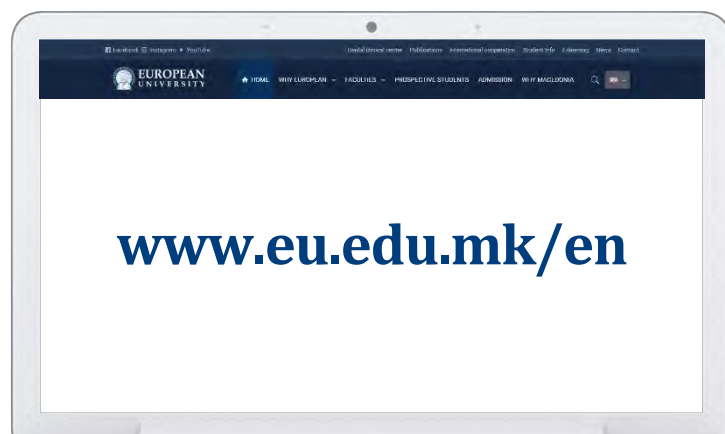

Applicants with completed 4-years secondary school and successfully passed state matriculation (final) exam or international matriculation exam, proficient in English (or Macedonian) language – level B1 (CEFR)

MASTER:

Bachelor graduates with 240ECTS, proficient in English (or Macedonian) language – level B1 (CEFR).

*Faculty of Art&Design 120ECTS curriculum – Bachelor graduates with 180ECTS

Candidates are welcome from all around the world.

UNIVERSITY DENTAL CLINICAL CENTER
“Professor Bojo Andreski PhD”

Main entrance of the University Dental Clinical Center

Since 2011, as part of the Faculty of Dentistry within the European University – Republic of Macedonia started operating the University dental clinical center “ Professor Bojo Andreski”, which apart from the state dental clinic, is the first and only private dental clinical center in the Republic of Macedonia.

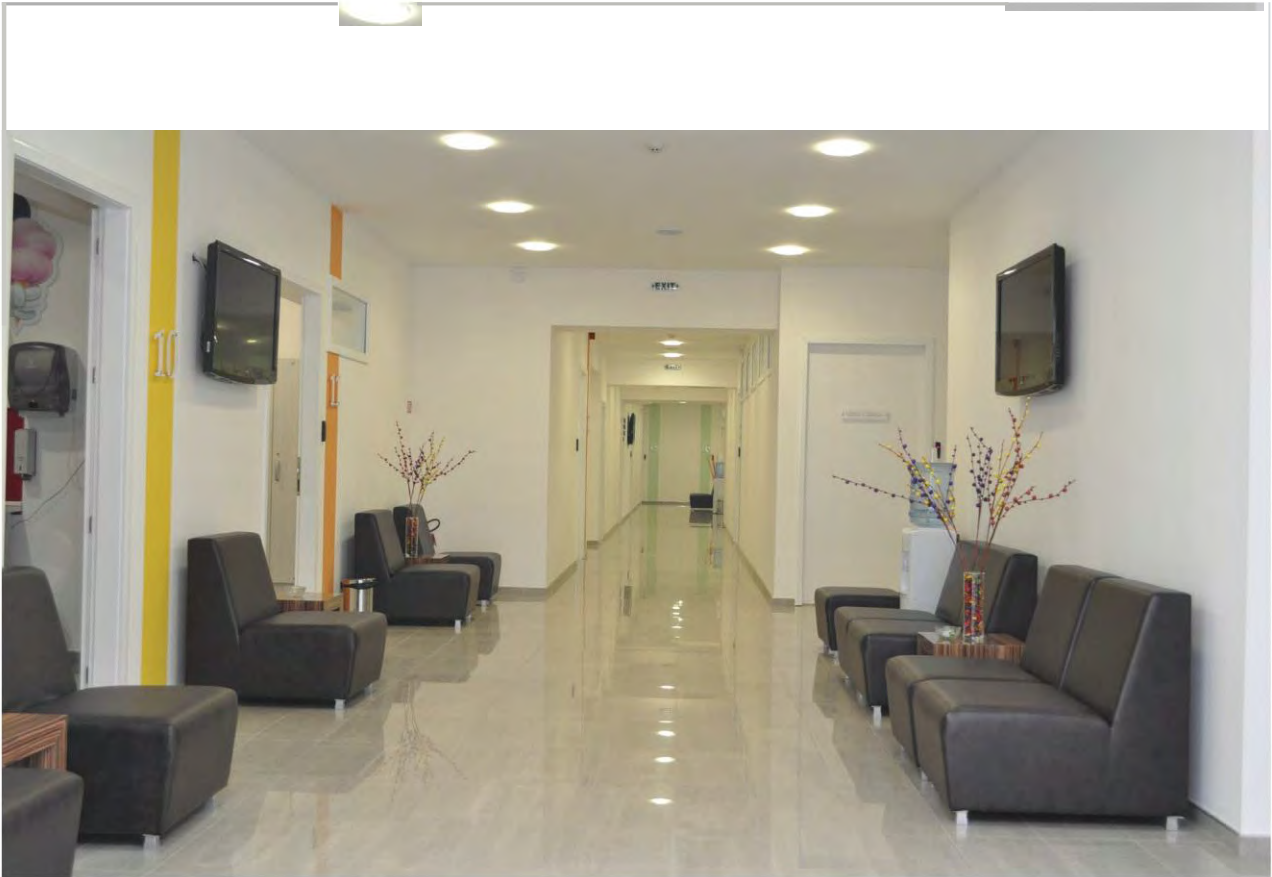

The University dental clinical center “Professor Bojo Andreski” is located within the building of the European University on a surface of 1200.8 m2 divided in two parts: preclinic with 337.65 m2 and clinic with 863.19 m2.

Information and reception desks

Patients' waiting room

Patients' waiting room

The Dental clinical center is located at the ground floor and all of its surface in on one level. The clinic has a separate easily accessible entrance located on the northern facade of the university. The northern facade has another entrance intended for VIP guests or as an emergency exit. The building has an access for special needs persons who can circulate in the clinic without impediments and use a separate restroom.

The University dental clinical center is divided in two parts: clinic and preclinic. The clinical part is divided into 6 departments (clinics) and additional premises:

- o Clinic for restorative dentistry and endodontics
- o Clinic for dental prosthetics
- o Clinic for oral and periodontal diseases
- o Clinic for orthodontics
- o Clinic for pediatric and preventive dentistry (room 1)
- o Clinic for pediatric and preventive dentistry (room 2)
- o Clinic for oral surgery and implantology

There are other additional premises:

- o Reception office
- o Central Sterilization Room
- o X-ray cabinet
- o Doctor's room
- o Surgery
- o VIP rooms
- o Office
- o Waiting rooms
- o Restrooms

Or, a total of 863.19 m2.

Prosthetics

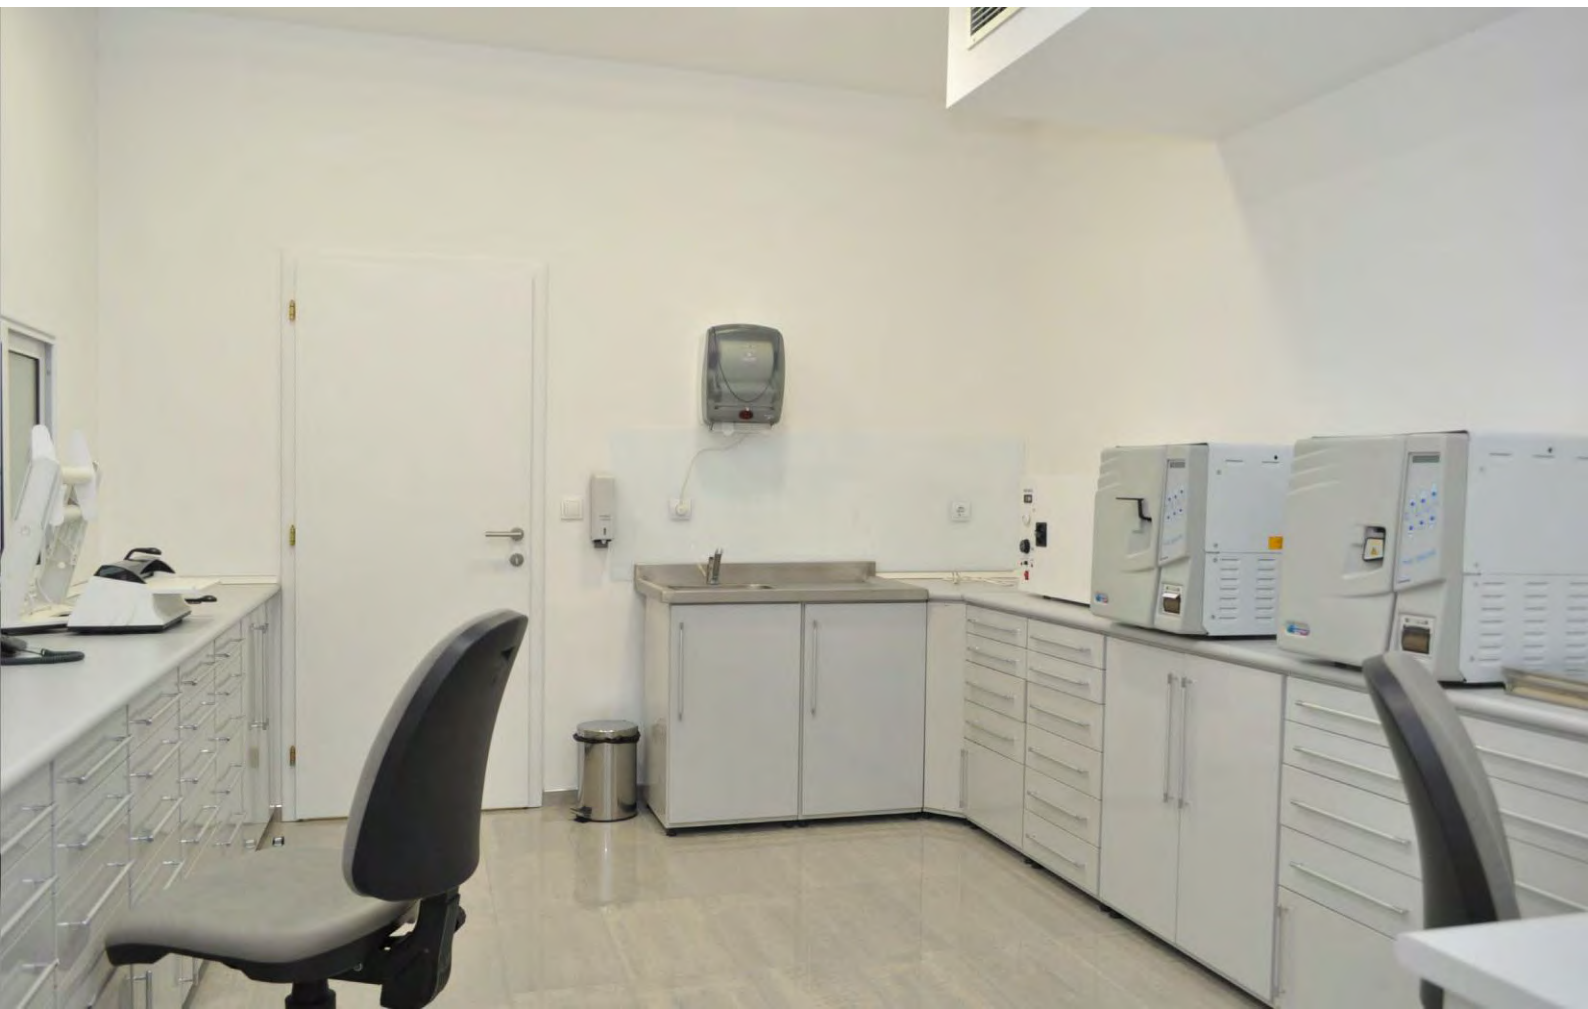

Prosthetics / Plaster lab

Prosthetics / Metal ceramics

Sterilization

Intraoral x-ray system

Panoramic x-ray cabinet

The preclinical part is made up of the following premises:

- o Practice room 1
- o Practice room 2
- o Laboratory 1
- o Laboratory 2
- o Laboratory for prosthodontics 1
- o Laboratory for prosthodontics 2
- o Additional premises

Or, a total of 337.65 m².

The clinic is situated in a building made of a steel construction with reinforced concrete mezzanine constructions. There are two levels, ground floor and first floor. The clinic is on the ground floor. The height measured from the floor to the ceiling is 350 cm. The building's facade is made of material which provides both thermal and audio insulation, as well as damp proofing.

The windows are double-glazed which provides additional thermal and audio insulation. The floors are paved with granite tiles.

The clinic has the latest equipment for x-ray examination of patients. The X-ray cabinet is protected from radiation as prescribed by relevant provisions and has a special door intended for this kind of cabinets. Each clinic has access to cold and hot water. The sterilization room has direct access to each clinic without having to pass through a hallway.
